Effect of tiller number per plant on grain yield and yield components
of durum wheat at different planting densities

أثر عدد الأذن في الورقة على إنتاج الحبوب وفي كميات أجزاء العملائد دانه. 

By maintaining at a level of 1 tiller per plant in the main stem, and at two tillers per plant
in the main stem, and at three tillers per plant in the main stem, and at four tillers per plant in the main stem,
and at five tillers per plant in the main stem, and at six tillers per plant in the main stem,
and at seven tillers per plant in the main stem, and at eight tillers per plant in the main stem,
and at nine tillers per plant in the main stem, and at ten tillers per plant in the main stem,
and at eleven tillers per plant in the main stem, and at twelve tillers per plant in the main stem,
and at thirteen tillers per plant in the main stem, and at fourteen tillers per plant in the main stem,
and at fifteen tillers per plant in the main stem, and at sixteen tillers per plant in the main stem,
and at seventeen tillers per plant in the main stem, and at eighteen tillers per plant in the main stem,
